**DRAFT**

**1 FACILITY SUMMARY**

Operation of a Class II disposal site composed of one municipal solid waste landfill unit, contiguous land, structures, and other appurtenances and improvements for the disposal of solid waste for Eureka County.

**1.1 GENERAL DESCRIPTION**

The 40 acre parcel occupied by the site was acquired from the Bureau of Land Management on September 14th, 1995. There is no zoning in Eureka County, thus the parcel is designated open rangeland. The solid waste landfill unit will occupy approximately 26 acres. No composite liner or leachate collection and removal system is to be constructed. The landfill will be constructed in a phased sequence. Daily cover material will be obtained from on-site borrow source areas. A routine monitoring program for the detection of methane gas will be conducted at the site. If levels of methane gas are detected above Nevada Administrative Code acceptable levels, all necessary actions will be taken to ensure protection of public health and safety.

The filing of a request by the Permittee for a Permit modification or termination, or a notification of planned changes or anticipated noncompliance, or termination of activities authorized in the Permit does not stay any Permit condition. The Permittee shall inform the Division of any deviation from or change in the operations as presented in the application, which may affect the Permittee's ability to comply with applicable regulations or conditions of this Permit. This Permit may be transferred to a subsequent owner or operator only if the solid waste management authority approves the transfer based on documentation of financial responsibility provided by the new owner or operator.

#### **2.6 INCIDENT REPORTING**

The Permittee shall report incidents to the Division as provided in the *Operating Plan*. In addition, the Permittee shall report any noncompliance, imminent or existing hazard from a release of waste or hazardous constituents, or from a fire or explosion at the facility, which may endanger human health or the environment. Such information shall be reported by telephone to 800-331-6337 within twenty-four (24) hours from the time the Permittee becomes aware of the circumstances. A written report shall be submitted within 15 days of the incident and shall include the following:
